## BELIEVE THERE WAS INSIDE EXPLOSION

U. S. Naval Officials Suspect Lusitania Was Victim of Double Attack.

INTIMATION IS DERIVED FROM PREVIOUS WARNING

Speculation Regarding Rumors of Treachery on the Irish Coast. Story Is Discredited.

Suspicion that the Lusitania must have been hurried to her grave by inentertained by naval officials, who today expressed surprise that a vessel with so many water-tight compartments should sink so quickly within nents should sink so quickly—within hirty minutes after the first explosion.

The ship is understood to have carthirty minutes after the first explosion. ried a vast quantity of war material for the allies, including much ammuhaving picked up messages saying the vessel was sunk. Inquiry at the Navy nition. Some of this might have been exploded by the torpedo which struck Department each time failed to confirm the ship. In that event, the fact that the reports, and they were not circulated, because it was feared they would the Lusitania floated only thirty minthe reports, and they were not cited lated, because if was feared they would spread unnecessary alarm.

At the German embassy here, while no comment was made as to whether it was known there that the vessel was to be destroyed, it was said the embassy knew the Lusitania carried arms and ammunition and, being advised of the resolution of the German admiralty to attack ships that carried such contraband, officials had believed she would be attacked. It was urged that the purpose of the German submarine campaign was only to destroy British commerce and ships, but not lives.

Question of Guns on Ship.

The American press in New York, Philadelphia and Boston denounces in vigorous terms the torpedoing of the Lusitania was deplored, the three pressure of inrushing water. In naval quarters, while the torpedoing of the Lusitania was deplored, there was much speculation as to why there was much speculation as to why the swift liner had slowed down in the purpose of the German submarine campaign was only to destroy British commerce and ships, but not lives.

Question of Guns on Ship.

There was a disposition on the part Lusitania was struck in broad day of the Germans to inquire also whether the Lusitanja carried any guns on her decks which might place her in the class of a warship, and make unnecessary, according to the rules of international law, the giving of warning.

Some navy-officers read, in the plant warnings published in this country before the departure of the big steamer that she would be attacked, an intimation that the ship would be blown up from inside during her voyage. of the Germans to inquire also whether light.

Association Meeting.

man war craft," and that "For this mur-Officials at the State Department said der there is no justification outside of they had not heard that the Lusitania The ship carried the full complement that law of necessity paraded by the Gerbassy it was revealed that early in the war, after the United States government had been consulted on the questions. A place for ment had been consulted on the question of small guns for the big liners, the advice was given by the State Department, and heeded, that no kuns be carried on the decks.

When the German admiralty proclaimed the waters around a soon as the steamer cleared New York.

In the New York World says that "The destruction of the Lusitania by a German submarine call for all the self-restraint and self-possession that the labour of the destruction of the Lusitania by a German submarine call for all the self-restraint and self-possession that the labour of the destruction of the dest man chancellor in the opening hours. partment, and heeded, that no guns be carried on the decks.

When the German admiralty proclaimed the waters around Great Britain and Ireland a "war zone" and warned neutral vessels against the dangers that lay therein the United States did not admit Germany's right to place hazards in the way of American vessels or lives.

No Distinction Drawn.

All boats were swung out and provisioned as soon as the steamer cleared New York harbor and remained so all the way of across. Every precaution that could be taken without impairing the seaworthiness of the steamer certainly was carried out, as has been the rule on all British and other vessels traversing the war zones since the German submarine blockade was declared. It was said, however, that the task of getting into the boats nearly 2,000 persons, many of whom were women and American people can command."

The New York Herald says. "The civilized world stands appalled at the torpedoing of the Lusitania"; that "if ever wholesale murder was premeditated this showher the command of the comma ness wholesale murder was premeditated this out, and slaughter on the high seas was," and that "Americans had the right to go by any steamship they chose; they had the right to protection by this government, and to protection by this government, and government can long last that does not protect its own citizens."

The New York Journal says: "The sink ing of the Lusitania, with her heavy freightage of peaceful travelers, including hundreds of women and children, was not an act of war; it was a deed of wholesale murder."

The Philadelphia Press says: "If it prove that American citizens have lost their lives by this form of assassination, what will our government do about it" There was no distinction drawn then as to whether the representations of of the torpedoes, could not be accomplished in thirty priority.

the United States covered Americans traveling on belligerent or neutral craft, but officials informally disclosed later that the note had been purposely phrased so as to cover both contingencies.

The language of the American note was everywhere recalled today as a possible index of the policy to be pursued. The discussion at the time arose particularly over the misuse of flags by belligerent vessels, the Lusitania itself having flown an American flag.

Other Suspicious Circumstances.

particularly over the misuse of flags by belligerent vessels, the Eusitania itself having flown an American flag to escape attack from German sub-The torpedoing of the British super-The United States remonstrated with Great Britain over such use of the American flag, and said at the time in a note to Germany.

"If the commanders of German vessels of war should act upon the presumption that the flag of the United States was not being used in good faith and shold destroy on the high seas an American edizens it would be difficult to view the set in any other light than as an indefensible violation of neutral rights which it would be very hard in deed to reconcile with the friendly relations not constrained to hold the imperial German government. "If such a deplorable situation should arise the imperial German government can readily appreciate that the government of the Einstein and to take any steps that inchesions and to hold the imperial German government of the Einstein and to take any steps that might be necessary to safeguard American states and to take any steps that might be necessary to safeguard American is and to take any steps that might be necessary to safeguard American is and to take any steps that might be necessary to safeguard American children to the imperial German government of the Einste States would be constrained to hold the imperial German government of the Einste States would be constrained to hold the imperial German government to the states would be constrained to hold the imperial German government of the Einste States would be constrained to hold the imperial German government of the Einste States would be constrained to hold the imperial German government to the states would be constrained to hold the imperial German government to the states would be constrained to hold the imperial German government to the call to a strict accountability for such acts of their naval authorities and to take any steps that might be necessary to safeguard American children to a strict accountability for such acts of their naval authorities and to take any steps that might be necessary to safeguard American children to a strict accountability of the same profit and the same profit a The torpedoing of the British super-dreadnaught Audacious off the Irish of a crime so diabolical, so damnable,

Vesse! Follows Regular Course. Judging by reports of her position at

the time of the attack, it was said, the

American government has been slient. It is now predicted that even though it developed that no American lives were lost on the Lustania, keneral representations will be made by the Limited States covering all the cases involved in the death of Leon C. Threshier, an American citizen, when the British steamer Palaba was sunk; the dropping of bombs on the American lives were found in the steamer Cushing, and the attack on the steamer Cushing, and the attack on the steamer Guight, which was wrecked with a loss of three American lives.

Sensation Created.

The report that the Lustania was torpedoed without warning created a profound sensation, for it was the first case in which this threatened procedure has been carried out with Americans on board a belligarent vessel. Aside from the diplomatic phases of the case, which were widely discussed in the capital, the sinking of the time of the line of the attack, it was said, the lest time of the Medical to be Dr. C. V. Druen of the Medical to be Dr. C. V. Druen of the Medical to be Dr. C. V. Druen of the Medical to be Dr. C. V. Druen of the Medical to be Dr. C. V. Druen of the Medical to be Dr. C. V. Druen of the Medical to the Lustania while the set is to understand with this case in the the sink city in a taxicab. He then the Capital, his grade being the Miss Grace the last voyage. Navy officers were at a loss to understand with this tist at loss to understand with this street northwest, assistant register of the Creasury, died at Gores Washington Livership to the first that the Miss direct at loss to understand with this was done in view of the warmings there at a loss to understand with this was done in view of the warming the street at loss to understand with this was done in view of the warming that had been given of the plan to sink her. The result was formed that the was such that the w

jectile or interior explosions accounted for the sinking of the vessel.

Navy Officers' Prediction.

Navy officers predicted that one effect of the loss of the Lusitania would be a popular demand in England for energetic action by the fleet. The failure state troops. Brooklyn, and Solace, and selected selected by the fleet. The failure state troops.

Get resident of the attempt to force the Dardanelles, followed by the sinking of the Lusi-tania, would be certain to produce such a demand, it was said.

Looking over the German submarine crusade, some officials here said it was bard to understand why attacks were head resided ever since.

Looking over the German submarine crusade, some officials here said it was hard to understand why attacks were confined to merchant craft when so many troop and supply transports are in daily transit between England and France. Before the great new army was moved from Great Britain to Flanders, it was recalled, it was officially announced that more than a million troops had been embarked and disembarked by England without a single accident. That number probably is more than 2,000,000 by this time, yet no case of a submarine attack on these ships has been received with the exception of one recent incident near the Dardanelles.

Dog Bites Child; Animal Shot.
